DEBRO Newsletter

JANUARY—MARCH 2017

## DEBRO CELEBRATES THEIR 2016 YEAR END

This year's Debro Christmas celebration was a staff only lunch held at Canyon Creek Restaurant on Thursday December 8<sup>th</sup> 2016. For the first time in several years our colleagues from both Eastern and Western Canada were able to join us.

## Industrial Specialties Team visits the Imerys Kaolin Plant in Sandersville, Georgia

Debro's Industrial Specialties Team went to the Kaolin Mining Facilities in Sandersville, GA for product training. The team were fortunate to see the new pulverizer and bagging equipment. They also had the opportunity to observe the entire Kaolin plant operations from the open pit mines to staging for pick up.

## [The Responsible Distribution 6th Cycle](#)

Debro's responsible distribution commitment will be implementing the new requirements as set out by the National Association of Chemical Distributors (NACD) Cycle 6. These new challenges will be reviewed in 2017 and implemented accordingly by management.

## [Leadership and Commitment in ISO 9001:2015](#)

### **LEADERSHIP AND COMMITMENT IN ISO 9001:2015**

As Debro moves toward implementing ISO 9001:2015 there is more emphasis on leadership and management commitment. It requires greater involvement by top managers and business leaders in controlling the quality management system.

This way, ISO 9001:2015 is intended to encourage integration and harmonisation with business processes and business strategies. The top management now have to take more responsibility for the effectiveness of the quality management system.

Because ISO 9001:2015 pays more attention to risk management, interested parties and the context of the organisation, the quality management system also fits in better with the needs of the top management.
